

Call for Papers

Smart Cities through Projects: Achieving Quality of Life?

At the heart of future cities, one must find a reflection of the diverse qualities, **challenges and aspirations** of its citizens. The continuous improvement of quality of life can come through innovative projects and related efforts that support both human interests and digital transformation. What form might this support take?

Addressing these complexities is not easy, but it is essential, and will be an ongoing effort of research, industry and government stakeholders in close **collaboration with its citizens**. A key challenge is to find ways how to combine the different players within complex project ecosystems. We must find ways to share our thoughts, questions and proposals in order to create a sustainable future that serves us all.

One way is to engage the global community. At **IEEE E-TEMS 2021** – organised by the European Partnership for Project and Innovation Management – participants will share their understanding of quality of life within cities, showcase their **digital transformation projects** and explore related themes.

The programme will be a balance between topics emergent from submissions and those we specifically seek. For those interested in **regional perspectives**, it is important to note that we are actively seeking contributions from organizations in and around Dortmund, Bilbao, Trondheim, Kaunas, Leuven, Kyiv and other Smart Cities.

We invite proposals for research papers, project case descriptions, visual displays/exhibitions and other creative, critical insights to these issues. In the event that a proposal is not accepted for one format (e.g., a paper), the programme committee might offer alternatives (e.g. a poster).

We also encourage the presentation of doctoral proposals in early stage of your PhD research.

Deadlines:

Full paper (4 – 6 pages): November 15th, 2020 and **Notification**: December 4th, 2020.

Doctoral Workshop Proposal (1 – 2 pages): December 20th, 2020 and **Notification**: January 24th, 2021.

Camera Ready paper: December 20th, 2020.

Topics:

- Achieving Smart Cities through Projects
- Transforming towards Digital Delivery
- Ensuring Diversity in Smart Cities
- Viewing Smart Cities from Gender Perspectives
- Being Mobile in Smart Cities
- Forming Digital Ecosystems
- Urbanizing Sustainably
- Engineering Smart Cities
- Securing Privacy in Smart Cities
- Training & Educating
- Definitions of Quality of Life in Smart Cities
- Managerial and economical impact of Industry 4.0

Depending on submission type, paper should include suitable combination of: synopsis, research design, related theory, project setting, education / practice relevance, project competencies, main findings, lessons learned, keywords.

More information about the paper requirements: <http://www.etems.digital/2021/paper-preparation/>

The submission should be done via EasyChair system: <https://easychair.org/conference?conf=etems2021>

Organising Committee:

Conference Chair – **Dr. Beverly Pasian** (Utrecht University of Applied Sciences)

Programme Chair – **Prof. Dr. Carsten Wolff** (Dortmund University of Applied Sciences and Arts)

Conference Manager – **M.A. Anna Badasian** (Dortmund University of Applied Sciences and Arts)

Programme Manager – **M.A. Nargiza Mikhridinova** (Dortmund University of Applied Sciences and Arts)
